

Joining a lab and setting up the first meeting form.

All students must join a lab by the end of the spring semester of the first year in order to remain in the program.

All students are required to meet once a year with their Thesis committee. First year EEB students are required to have their first meeting prior to the end of their second semester of the first year. MBG and Microbiology students are required to have their first meeting prior to the end of fall semester of their second year. After each meeting the PI is required to send a summary (an email will suffice) of the meeting to you, to the Graduate Advisor and to each member of the Thesis committee.

This form is due prior to your first thesis committee or when you formally join a lab.* This form can either be sent as an attachment or sent to the Graduate Office in Myers Hall Rm. 150.
